Concept of Social Work

Global Definition of Social Work

The following definition was approved by the IFSW General Meeting and the IASSW General Assembly in July 2014:

Social work is a practice-based profession and an academic discipline that promotes social change and development, social cohesion, and the empowerment and liberation of people. Principles of social justice, human rights, collective responsibility and respect for diversities are central to social work. Underpinned by theories of social work, social sciences, humanities and indigenous knowledge, social work engages people and structures to address life challenges and enhance wellbeing.

The globe is being held up by several hands of various skin tones, including white, yellow, and brown, reaching up from the bottom. The background is a solid blue. The text "Thank You" is centered over the globe in a bold, black, sans-serif font with a white outline and a blue drop shadow.

Thank You
